

Are you on a temporary

work visa?

In NSW it is a crime to drive without a licence or if your licence is disqualified. It can also be a crime to drive when you have had alcohol.

You can...

get a fine and **suspension** of your licence straight away

be arrested and taken to a police station

have your car taken away

go to court

get a criminal record

go to gaol for 12 months and have your licence **disqualified** for a long time.

If you go to gaol it might affect your visa. If this happens to you it's important to see a lawyer before you go to court.
